- Hands-on Math Explorations

Art Inspired Kinderstars through 2nd graders learn art FUNdamentals in open- ended creative ways. Stories, nature and their own interests will drive this inspiring class.

Art Lab

This Mixed Media Art Class allows children to explore a wide variety of materials including paint, pastels, watercolor, clay and fiber arts along with exciting techniques such as collage, printmaking, sculpture and various painting techniques to cultivate their artistic skills through the Elements of Art.

Art Lab

Projects will introduce students to various artists, cultural art from around the world & Art Styles through the ages.

Our projects focus on the Elements of Art: Line, Shape, Color, Value, Texture, Space and Form
